DISHWASHER

SIEMENS IQ300 - SR636D00MG

SWITCHING THE APPLIANCE ON

1. Turn on the tap fully.
2. Open the door.
3. Switch on On/Off switch (1). The Eco 50° programme display flashes.
4. Press the START button (7).
5. Close the door to start program.

RINSE AID

As soon as the rinse-aid refill indicator (5) is lit on the fascia, there is still a rinse-aid reserve of 1-2 rinsing processes. Refill with rinse aid. The rinse aid is required for stain-free utensils and clear glasses. Use only rinse aid for domestic dishwashers.

Combined detergents with rinse-aid component may be used up to a water hardness of 21° dH (37° fH, 26° Clarke, 3.7 mmol/l) only. If the water hardness is over 21° dH, rinse aid must be used.

- Open the dispenser (14) by pressing and lifting the plate on the cover.

- Carefully pour rinse aid up to the maximum. Mark in the filler opening.

- Close cover until it clicks shut.
- To prevent excessive foam formation during the next rinse cycle, remove any rinse aid which has run over with a cloth.

SETTING THE AMOUNT OF RINSE AID

The amount of rinse aid dispensed can be set in 4 stages. Accordingly 0, 1, 2, or 3 displays are lit. Factory setting is 2.

CLEANING & CARE

With good care and cleaning, your appliance will retain its appearance and remain fully functioning for a long time to come.

OVERALL CONDITION OF THE MACHINE

Check spray arm for grease and limescale deposits.

If you find such deposits:

- Fill detergent dispenser with detergent. Start the appliance without utensils in the programme with the highest rinsing temperature.
- Clean the appliance with detergents/appliance cleaners.
- To extend the life of your appliance, clean the appliance regularly with a special dishwasher detergent.
- To ensure that the door seal always remains clean and hygienic, regularly clean it with a damp cloth and a little washing-up liquid.
- If the appliance is switched off for a prolonged period, leave the door ajar to prevent the formation of an unpleasant odour.
